

# POB30D COIL TESTER AND POWER SUPPLY DV POWER

SKU:

Product Categories: High Voltage Test Equipment, Circuit Breaker Test Equipment by DV Power

Product Tags: DV Power, POB Series

## Additional Information:

### Short Description

The POB30D Coil Tester & Power Supply is a powerful and lightweight power supply, ideal for operating and testing circuit breakers coils. It was also designed to supply spring-charging motors with an inrush current of up to 30 A DC. This unit provides a wide-ranging output of 10 – 300 V DC for supplying circuit breaker auxiliary circuits. The POB30D can perform automatic tests of minimum trip-voltage in accordance with IEC 62271-100 and ANSI C37.09 standards.

POB Series Brochure

### Description

The POB30D can be used as a general power supply device or a temporary battery charger. This unit was designed for:

- circuit breaker coil operation
- spring-charging motor supply
- lightweight – only 10.6 kg
- minimum trip voltage test of the circuit breaker's coils
- as a power supply for tests with breaker analyzers from different vendors

#### Included accessories

- Mains power cable
- Ground (PE) cable

#### Recommended accessories

- Cable set 6 x 2 m 2,5 mm<sup>2</sup> (13 AWG)
- Transport case
