

- Our Hawk 10000 Cargo Hook is designed for aircraft lifting up to 10,000lb.
- The Hawk 10000 has EMC protection and is military qualified to MIL-STD-810D & RTCA DO-160
- The design is of simple construction involving no delicate mechanisms requiring fine adjustment.
- One handed rigging capability with sprung open load beam.
- Load release is via electrical solenoid or ergonomic knob, enabling easy handling even wearing gloves.
- The Hawk 10000 is available with load measurement which enables the pilot to operate within safe lifting parameters.

Releases at 10,000lb

Capable of releasing 10,000lb electrically, The release mechanism locks automatically above a pre set load. It is also capable of being overridden by the pilot electrically if required.

Load status indication

The HAWK 10,000lb Dual release hook incorporates sensors that enables the pilot to monitor load operating conditions load beam open; load beam closed; load beam locked & load beam unlocked.

Optional load measurement

Available with load measurement, which enables the pilot to operate within safe lifting parameters.

Bespoke modifications

As with all our hooks, it is possible to make modifications to the original spec to suit your particular design requirements, contact us for a bespoke design quote.

Hook Specification

■ Part Number:	192CA42
■ Design Load:	10,000lb
■ Proof Load:	28,750lb
■ Ultimate design load:	43,000lb (min)
■ Electrical Release Capacity:	10000lb Max
■ Release:	Manual knob & Electrical
■ Load Indication:	Load Pin
■ Minimum Release Load:	0 Kg
■ Unit Weight:	8.4 Kg
■ Electrical Requirement:	22-28V DC 10AMPS
■ MIL Qualified:	MIL-STD-810D & RTCA DO-160
