

DVR-300

0-300 kV AC/DC High Voltage Divider

Model DVR-300

Our Company and Our Products

High Voltage, Inc. manufactures the most advanced test equipment available for high voltage proof and preventive maintenance testing of electrical apparatus. All of our products are newly designed to meet the present day needs of utilities, industrials, and testing services. Our products offer features and specifications not found elsewhere. Our products include unique, sine-wave output **Very Low Frequency (VLF) AC Hipots, DC Insulation/HV Megohmmeter Test Sets, Aerial Lift Testers, AC Hipots, Cable Thumpers & Radars and AC Dielectric Oil Testers.**

Description

The **DVR-300** is a precision resistor/capacitor high voltage divider that provides a low voltage output proportional to the applied high voltage. Its 10,000:1 ratio extends the measurement capability of most digital voltmeters and oscilloscopes to 300,000 volts. The divider includes a switchable low end impedance to match various metering inputs.

The **DVR-300** lends itself to waveshape/harmonic analysis using a standard oscilloscope. This divider can be used to measure DC multiplier circuits or AC transformers limited only by the Digital Volt Meter (DVM) used as the metering device.

Features

- Can be used as a reference for in-house high voltage calibrations
- Designed to be used with most DMMs or oscilloscopes
- No external power sources required
- Switch selectable 10 Meg or 1 Meg low end impedance
- Light weight, transit sturdy assembly
- Less susceptible to effects of electric field proximity

Control Panel Layout

Specifications

Voltage Range	1-300 kV DC or AC to 1kHz sinusoidal
Output	1 volt per 10kV applied (10,000:1 ratio)
Divider Accuracy	±0.5%, 10-40°C
Input Resistance	1430 Meg Ohm
Input Capacitance	49 Pico Farads
Cable Length	25 ft. (7.6M) RG58/U coaxial cable
Divider Termination	22 inch 559mm) diameter spinning
Overall Size and Weight	24" Diameter x 61" h, 85 lbs. 610 mm Diameter 1549 mm h, 39 kg

HIGH VOLTAGE, INC.

High Voltage, Inc. designs and manufactures high voltage test equipment for utility and industrial applications. Also available are Very Low Frequency (VLF) high voltage AC test sets, oil dielectric test sets, AC and DC instrumented test sets, cable fault locators and other products.

Specifications, sizes, weights and features may vary slightly in the interest of continuous product improvement.
