

RoHS Policy Statement

Drallim Industries Limited is aware of developments in European Union legislation regarding the harmonisation of member states' legislation with regard to the "Restrictions of the use of certain Hazardous Substances in Electrical and Electronic Equipment (RoHS) Regulations (as amended) 2012 S.I. No. 3032". We also understand the requirements of the related "Waste Electrical and Electronic Equipment and Restriction of the use of certain hazardous substances in Electrical and Electronic Equipment (WEEE) Regulations (as amended) 2014 S.I. No.1771.

As an ISO14001 registered company Drallim Industries Limited:

- Is committed to fully comply, where applicable, with the RoHS and WEEE Regulations.
- Has a program in place to ensure that, where applicable, our products satisfy both these regulations with respect to the various categories of electronic products as defined in our product schedule.
- Undertakes a constant review of component and our supplier base to verify supply chain ability to produce and deliver RoHS compliant products where applicable to the regulations.
- Evaluate our design and manufacturing processes in order to deliver RoHS compliant products.
- Design and redesign our products by product family to meet RoHS compliant specifications.
- Will continually evaluate our policy to ensure compliance with the RoHS and WEEE requirements and, when necessary, amend this document.

Drallim Industries Limited is aware that, under the RoHS Regulations, it is no longer possible for companies to place on the market in the EU certain electrical and electronic equipment containing lead, mercury, cadmium, hexavalent chromium, poly-brominated biphenyls (PBB's) or polybrominated diphenyl ethers (PBDE's) in more than the allowed concentrations.

As the Accountable Manager it is my responsibility to ensure the controls that we put in place are adhered to, are regularly reviewed for their effectiveness by our Engineering and Procurements team, ensuring that these requirements are flowed down to our sub-tier suppliers.

David Mooney
Managing Director
