

# Environmental Policy Statement

Drallim Industries Limited recognises that its' activities can have an impact on the environment through generation of waste, use of raw materials, resources and emissions to air and water. We are committed to maintaining an Environmental Management System, to BS EN ISO 14001:2015 our top management endeavour to lead the company toward continual improvement of its performance, the protection of the environment, by minimising the impact as far as is reasonably practicable and ensuring the principles of sustainable development are operated throughout the range of activities in which we are engaged.

Drallim Industries Limited is committed to:

- Reduce and where reasonably practicable protect the environment by minimising any adverse impact on the environment arising from the activities of our business.
- Minimise the use of energy, resources consumed and waste produced while undertaking our business activities in a safe and professional manner.
- Endeavour to prevent pollution, by minimising toxic emissions and consumption of resources including selection of its fleet vehicles, support the re-use and recycling of materials and ensure the safe and legal disposal of all waste arising from the activities of the business.
- Comply with and wherever possible exceed the environmental requirements of our compliance obligations including those from appropriate legislative bodies, our customers, and other interested parties within the context of the company's business.
- Identify the significant environmental aspects and impacts from current and relevant past activities and services and, where we have direct control or can be expected to have an influence, implement an environmental management system.
- Ensure that all staff whose work may create a significant impact upon the environment are provided with adequate and appropriate information and training to assist in understanding and fulfilling their, and the company's environmental responsibilities.
- Establish and measure environmental performance against objectives and or improvement set annually at management review.
- As a minimum, annually reviewing and revising, if necessary, this policy and the management system.

The management commit to providing sufficient financial, business and other resources for carrying out the above. We all have a personal responsibility for working in an environmentally friendly manner. The involvement and participation of everyone will be actively sought and encouraged.

This commitment extends to all our activities, wherever they take place, which have the potential to adversely affect the environment. All QHSE issues are recorded on a register for on-going review and control.
